SAHASHRA JANITH DAMSARA

Junior Software Developer | Full-Stack Web & Android Engineer

PROFILE SUMMARY

Goal-oriented and enthusiastic **Junior Software Developer** with a completed **NVQ Level 4 qualification** in Software Development and a **Diploma in ICT (Reading)**. Possesses strong technical expertise across **PHP, MySQL, Java, JavaScript, HTML5, CSS3, Android App Development, CI/CD Workflows, and RESTful APIs**. Proven track record in engineering full-stack web applications, factory inventory management systems, tuition LMS exam engines, and native Android mobile apps. Passionate about writing clean code, database optimization, and delivering high-performance software systems.

WORK EXPERIENCE

Software Developer (Freelance / Contract Basis) — Mr.Link Technology 2025 – Present

- Engineering custom web applications, REST backend APIs, and software modules on a project-by-project contract basis.
- Managing database architecture, query optimization, security protocols, and responsive frontends for client systems.
- Implementing server-side deployment pipelines, cPanel configuration, and database maintenance workflows.

Intern Web Developer — Sakwa Canneries & Exports 6 Months Internship

- Designed, engineered, and deployed the official **Sakwa Canneries Inventory Management System**.
- Streamlined factory stock tracking, export batch recording, supplier records, and real-time inventory reporting.
- Optimized MySQL database queries to accelerate stock lookup speed and automated stock reorder calculation.
